EXPLANATION: The regional representation program of Montgomery County's five Regional Services Centers provides liaison between the County and its residents, community groups, businesses, regional Citizens' Advisory Boards, and other public agencies. The Centers serve as a direct link between the County government and its citizens – bringing the County's services closer to residents, businesses, and other local organizations. The Centers also help the County Executive to keep in touch with local issues, while making it easier for citizens, community groups, and business organizations to voice their concerns and influence legislation. Center staff provide liaison, mediation, technical assistance, and problem-solving skills to area organizations and individuals – helping to identify and assess regional problems and issues, facilitating the development of solutions, managing site selections for public facilities, and bringing community perspectives to major policy issues. The Centers communicate with local individuals and groups through monthly newsletters and a variety of other media.
